WORK EXPERIENCE

Mar2023 – Jan 2025

Web-Developer
Kollekt

Denmark

My major role is to manage different tech teams and providing them the necessary guidance they need to build the products. Also, I'm managing the deployments besides the development related issues of the team members.

Sep2021-Feb2023

Tech Lead
Sparktechus

Lahore, Pakistan

I worked here as Tech Lead and my responsibilities were to manage the tech projects and provide different tech solutions to the industry problems. My expertise was utilized in the development and deployment of web portals. Also, my role was to provide automated solutions over the web and desktop applications.

Sep2020-Aug2021

Web Desktop Developer
weltfern GmbH

Hamburg, Germany

I worked here as Tech Executive Lead and my responsibilities were to manage the tech projects and manage different tech teams. I worked here from development to deployment that gave me much experience that currently I have. During my work, I worked on different frameworks like Vue.js, Django, Node.js etc. Also, I worked on different 3D libraries like Three.js, Babylon.js, Model Viewer etc. and gaming engine UE4.

Dec2018 - Aug2020

Software Engineer & Developer
ComfNet Solutions GmbH

Hamburg, Germany

I performed my duty as Software Engineer & Developer and worked on different projects related to web technologies. During my work, I worked with Vue.js and Django frameworks while working on web portals. Also, I worked and made some WordPress plugins especially related to the browser and cookies.

WHY ME?

Experienced Full Stack Developer with a demonstrated history of working in the computer software and IT industry. Skilled in Web Development, Web Portals, Frameworks like (Vue.js, Django and node.js etc.), APIs integrations, Artificial Intelligence, Software Development, Software Architecture, Agile methodologies, and Server Deployment and Configurations. Strong software developer professional with more than 5+ years of experience in the software industry. Currently, working on different stacks, new technologies, 3D objects/models, virtual reality, augment reality and content management system on the web portals by using webXR technologies. Besides, I'm also into the DevOps related things such as chef, ansible, docker, Kubernetes, AWS, apache2, nginx, Jenkins and Linux server etc.
